DNA Custom Paints & Finishes...

now available from your Paint Smart Group Member.

DBNZ and the Paintsmart group are pleased to announce the launch of the DNA brand of custom paint and specialist finishes.

DNA (as in genetically modified paint) is a full spectrum of custom finishes and effects limited only by ones imagination. Not only does it consist of an extensive range of effects and colours, but also includes a complete stable of products including epoxy's, primers and clear coats.

A huge advantage over competitor products is that DNA is completely manufactured in Melbourne and tested to Australasian weather conditions especially our UV exposure in this part of the world. (Note Australia and New Zealand are exposed to up to double the harmful UV radiation than the northern hemisphere per annum)

Candies, Candy basecoats, Flakes, Virtual Chromes, Colour shift, Mutant Crystalz, Flat Clear, Flat Black, Holagrafix Crystals, Marbilizer, Glow in the Dark, Hi Sparkle pearl to name just a few. Trident (also made by DNA) Waterborne airbrush colours specifically developed by airbrush artists for airbrush artists perfect for all applications including automotive.

Included in the DNA range of products are colour books, caps, t-shirts, spray-overalls, display shapes, like resin skulls. Training courses in product application available at the DBNZ training facility in Hamilton.

SPECIAL DEALS

DNA Flat Clear

Specifically designed to have a level of resistance to scuffing and scratching not seen before DNA Flat Clear has been voted as "the Best Flat Clear around" by many custom painters.

Valspar Joins I-CAR as an Industry Training Alliance Partner

I-CAR New Zealand, Valspar Corporation and DBNZ Coatings are pleased to announce the recent alliance between Valspar and I-CAR international has now extended to an alliance here in New Zealand. The I-CAR Industry alliance exists to recognise the accomplishments of students training through approved training providers.

As the exclusive importer of the Valspar Automotive product ranges, DBNZ Coatings has been running a annual calendar of very successful training programs for the past 15 years from a specifically designed training centre based in Hamilton, New Zealand.

I-CAR, Valspar and DBNZ are very excited to offer the opportunity for attendee's to not only up skill on the latest products and processes from the industry, but to also offer the ability for both the shop owner and the tradesman to be recognised through the I-CAR awarded point system for their commitment back to the industry by being involved in approved industry training.

The Valspar approved courses run out of DBNZ Coatings in Hamilton will sit hand in hand with the I-CAR industry specific training already offered to recognise refinish technicians as Platinum. This makes it possible for the shop to become I-CAR Gold Class. (Note that there are other requirements.)

Soon to be released will be a break down of courses available through DBNZ and the achievable points for attendee's. In conclusion I-CAR, Valspar and DBNZ Coatings look forward to working together to offer extensive and on going training and recognition to the New Zealand Collision Repair market.

DBNZ training facility Hamilton

New Members of the Team

Recently we have had two new members of the team start with us. Chris and John have settled in very well and are going to quickly become valued team members. Here is a quick few questions to get to know Chris and John better...

John Lyon

What is your job description at Linkup Paints? Paint mixing, customer service and what ever needs doing on the day

What did you do before working at Linkup? Owner operator of a Jims Lawn mowing franchise

What are you looking forward to the most about being employed at Linkup? An opportunity with a challenge and working in a good team

What is your marital status? Happily married with two children.

What's your favourite food? Burgers

What's your favourite drink? Beer (Heineken)

What's your favourite music? George FM

What do you like doing in your spare time? Riding motocross and socialising

If you could have dinner with any two people in the world, who would it be?

Two of my friends who live in the UK.

Chris Adamson

What is your job description at Linkup Paints? Purchasing Officer, however I also help out with inwards goods and of course customer service

What did you do before working at Linkup? At Linkup Paints, Hamilton

What are you looking forward to the most about being employed at Linkup? Working with a friendly and positive team with good banter.

What is your marital status? Have a girlfriend

What's your favourite food? Burgerfuel or KFC

What's your favourite drink? Corona

What's your favourite music? Fat Freddy's Drop, The Black Seeds, Six 60 and Home Brew

What do you like doing in your spare time? Fix racecars and play rugby league

If you could have dinner with any two people in the world, who would it be? Floyd Mayweather junior and Shaun Johnson
