Health and Safety

Health and Safety Management Package for Small Businesses

Wholesafe have teamed up with New Zealand OHS Consultants Ltd to introduce a comprehensive Health and Safety Management package.

Designed to take the guess work out of new changes to the Health and Safety Legislation starting in April, this pack is written and designed by certified New Zealand Health and Safety Professionals for small New Zealand business.

Contents include:

- ▶ Health & Safety Policy/Statement
- ▶ Driving Policy
- ▶ Health and Safety Management Plan and Supporting Appendices
 - ▶ How to Use Guide
 - ▶ Emergency Response Plan
 - ▶ Take 5 Booklet
 - ▶ Incident and Investigation Report Pad
 - ▶ Site Induction Pad
 - ▶ Toolbox Talk/Safety Meeting Pad
 - ▶ Job Safety Analysis Pad
 - ▶ Emergency Whistle
 - ▶ Storage Clipboard
 - ▶ Pen and Whiteboard Marker

Ideal for small businesses.

FINIXA SPRAY BOOTH DECONTAMINATION PROGRAM

Contamination of your spray booth environment has a negative effect on your profit... **Finixa's advanced chemical technology is the solution.** We can hugely reduce the amount of de-nibbing and polishing in your shop by providing a decontamination solution for your spray booth environment.

BEFORE

AFTER

THE PRODUCTS

Finixa Peelable Booth Coating

A white peelable coating for the protection of spray booth walls against overspray. Simply roll on 3 coats for a start and then every 4-6 weeks apply another coat, after approximately 12 months, simply peel the coat off and start the process again – your booth will stay clean bright white.

Finixa Liquid Mask

A clear washable coating that is perfect for protecting your booth lights and windows from overspray. Simply apply one thick coat with a 2.5mm setup spray gun and remove with water and a sponge.

Finixa Dust Control

The original and most efficient formula for suppressing dust circulation inside a spray booth. Dust Control ionises the dust so it is being drawn together in clusters which makes it too heavy to circulate in the air. Simply mist on with sprayer once a week to significantly reduce dust in your paint work.

Finixa Water Based Degreaser

A powerful water based degreaser that cleans the substrate and removes contamination, also anti-static so perfect for plastic parts which will reduce dust contamination.

Finixa SPON Tape

Rounded foam strip for masking joints between two panels. Protects the joint perfectly, absorbs the paint and avoids edge building. Added benefit is the stopping of contaminants coming out of joints onto paint surface.

Finixa Tac 30

Unique impregnated tac cloth that never dries out and works as anti-static, unlike other tac cloths. Never leaves a trace of residue. Great for also tacking off your air hose, and spray gun before spraying, this reduces a huge amount of contaminants.

Buy 2x5L Finixa Dust Control and get a **FREE** Application Sprayer

Buy a drum of Finixa Peelable Booth Coating & get a **FREE** roller tray, roller handle & pole, roller sleeve
