## DNA CUSTOM PAINTS

### DNA - Genetically Modified Paints!

DNA Paints are full of life and creativity. We like to think that DNA Paints are more alive and creative because we have altered and modified their DNA to make them stand out, be different and be noticed! Just like everyone has different DNA, we like to think every DNA custom painted project has its own unique DNA strand of uniqueness!

DNA manufactures a huge range of cutting edge custom paints and special effect products that allow you to customise whatever you like!

### DNA Custom Aerosols

DNA Custom Aerosols are designed so anyone can create professional custom paint effects at home without having to purchase commercial quantities of paint and other products.

Perfect for small projects such as sculptures, artworks, car parts, bikes, surfboards, skate boards, RC cars, planes, furniture and almost anything else you can paint.

SPECIAL CONDITIONS APPLY: Offers in this publication are subject to product availability and are for the months of August and September 2018 only. All prices are exclusive of GST. Product may differ from those illustrated.

## 3M™ Perfect-It™ Fast Cut Plus Extreme

3M™ Perfect-It™ Fast Cut Plus Extreme is a fast cutting abrasive liquid compound designed to quickly remove sanding scratches after the denibbing process with 3M 260L P1500 then Trizact™ 3000 and obtain high gloss on both fresh or aged car paint. Our 3M™ Perfect-It™ Fast Cut Plus Extreme is one of the latest generation of award winning colour coded compounds, designed for all kinds of paint rectification or restoration work, such as oxidation, surface scratches, car wash scratches, etc.

### Benefits:

- Exceptional fast cut-rate performance
- 20% to 25% less product required to polish the same area
- Achieves a superior high gloss finish
- Removes overspray

## 3M™ Grippy Sanding Cloth

Designed for wet or dry sanding, 3M™ Grippy Sanding Cloth features a thin, flexible backing with a special gripping material that wraps around hand tools. It helps technicians maintain smooth and consistent contact to achieve more refined finishes, even on contoured or irregular surfaces which ultimately, ensures better productivity. The flexibility of the backing makes it easier to sand hard-to-reach areas. Our abrasive cloths exhibit exceptional durability and tear resistance, and they will not crease when folded allowing them to return to their original form after folding. From its thin, extremely conformable film to its tough but refined abrasive to its unique gripping system, it's further proof that 3M delivers the best products to get higher efficiency and better results in collision repair. Get a grip and hand sand better!
