3D

3D ACA™ 520 FINISHING POLISH™ is the industry's fastest hologram-free finishing polish with Alpha Ceramic Alumina™. This revolutionary new water based, abrasive polish has been constructed to provide high-speed, low-heat, hologram-eliminating polishing for the most challenging clear coats and single-stage paint. ACA™ 520 Finishing Polish™ is extremely easy to use and easily removed, leaving a perfect finish the first time, every time. ACA™ 520 Finishing Polish™ works best when applied in shaded areas, but is also sun friendly.

- Easy to use
- Easy clean up
- Superior finish
- No fillers
- True paint correction

3D ACA™ 500 X-TRA CUT COMPOUND™ is infused with Alpha Ceramic Alumina™. Alpha Ceramic Alumina™ is a revolutionary new abrasive which has been constructed to provide high-speed, low-heat levelling that will correct even the most challenging clear coats and single-stage paint. This precisely engineered compound delivers true paint perfection in the absolute shortest amount of time. ACA™ 500 is water based which makes it easy to use, easy to clean up, and sun friendly. It contains NO harmful solvents, kerosene, or OSHA regulated crystalline silica. ACA™ 500 X-TRA Cut Compound™ can be perfectly paired with either a wool or foam pad used with a rotary buffer or dual action polisher.

- Cuts P1000 or finer
- True paint correction
- Long working time
- Easy clean up
- Foam or wool pad

\$173.00

NEW

SPECIAL CONDITIONS APPLY: Offers in this publication are subject to product availability and are for the months of November & December 2018 only. All prices are exclusive of GST. Product may differ from those illustrated.

It's Spray Booth Maintenance Time!

Finixa Cabine Protect Peelable Booth Coating

A white peelable coating for the protection of spray booth walls against overspray. Apply with a spray gun (2.5mm setup) or a roller in 2 to 3 coats. After contamination (normally 4-6 weeks) it is important to apply another coat. This keeps your booth clean and white and enables the coating to build so it's easier to remove.

17 Litre
ONLY
\$265.00

Finixa Cabine Basic Booth Coating

5 Litre
ONLY
\$35.00

A transparent, tacky, and washable coating for the walls of your spray booth to protect against overspray. This product stays tacky to hold on to swirling dust. Apply 2-3 initial coats with a spray gun (2.5mm setup). Remove or re-coat when it is no longer tacky. Easy to remove with water.

Finixa Liquid Masking Booth Coating

A transparent washable coating for the protection of your spray booth walls and windows. Apply in one thick coat with a spray gun (2.5mm setup). This product dries completely and is not tacky. Remove as desired with water.

5 Litre
ONLY
\$55.00

Finixa Dust Control

Dust control holds paint and dust particles down on the floor of your spray booth by ionising the particles so that they are drawn together into clusters, making it too heavy to circulate around your booth in the air. One easy application lasts 5-10 days and reduces wasted cutting and polishing time with less contamination in your paint.

5 Litre
Only
\$55.00

Booth Inlet Filter

High quality FF560 inlet filter for your spray booth. This product can be cut to size to fit your booth. Inlet filter is often overlooked as a regular maintenance item, and in most cases it should be replaced at least annually. Not replacing it doesn't just affect the quality of your jobs, but it can also affect the performance of your spray booth. Contact your PSG representative and they can provide a quote.

Booth Exhaust Filter

Quality exhaust filter for your spray booth. Available in 20m rolls

750mtr	\$80.00
1mtr	\$105.00
1.5mtr	\$159.00
2.0mtr	\$212.00

Finixa Degreasing Bucket

Simply add 2-3 litres of Finixa water based degreaser to the bucket and you have 100 pre-treated wipes for ease of use.

Only
\$35.00

Finixa Degreasing Cloths

Only
\$72.00

Degreasing cloths with excellent absorption capabilities and suited for water or solvent based degreasers

Finixa Spray Gun Cleaning Kit

Only
\$39.95

A complete set of tools for cleaning and maintaining spray guns. The set consists of 8 brushes for cleaning the interior, 3 small brushes with holder and one large brush for the exterior, 6 needles with holder for cleaning the nozzle, and a bottle of lubricant to maintain the moving parts.

Finixa 1K Clear Coat

Fast drying, high quality professional 1K clear coat with easy application and constant atomization pressure. Great flow and gloss level, with fading and UV resistance. All this in a handy 400ml aerosol.

Only
\$12.00

Valspar Refinish

Simply purchase over \$100 worth of Valspar Refinish mixed colour **and receive a Valspar Refinish work light for FREE!**

Valspar Industrial Mix

Valspar Industrial Mix (VIM) has developed and released new binders to meet the high demands of the commercial vehicle and light industrial coatings markets. Adding to the already comprehensive 2K polyurethane binders that exist in the VIM range, the new binders include:

TB510 Full Gloss Direct-to-Metal Topcoat
TB511 Semi-Gloss Direct-to-Metal Topcoat
TB512 Matt Direct-to-Metal Topcoat

To allow ease of application and increased process times, there are also new binders to help with bright yellow colours and whites.

TB518W White Binder Direct-to-Metal Topcoat
TB518Y Yellow Binder Direct-to-Metal Topcoat

Valspar Industrial Mix can be tinted to almost any colour using the VIM tinting system.

See your Paint Smart rep to discuss how VIM products can assist you.
