Water Based Degreaser

Finixa water based degreaser is a very versatile product, perfect for cleaning any surface before painting (we do recommend a solvent based degreaser to remove tar, glue etc.). This product has the advantage of being an anti-static degreaser and an easy wipe on, wipe off application.

Abrasive Prep & Clean

Prep & Clean removes wax, grease, and other contaminations from the surface, and is the only paste that effectively removes the mould release agents that can cause paint problems and possible de-lamination. It is also excellent for preparing blend areas and general substrate preparation prior to painting.

Parking Sensor Masking Tabs

The fastest and safest way to mask integrated parking sensors, they help avoid contamination of sensors and provide protection against potential damage from sanding, painting and polishing. No need to dismount the parking sensors, clean and easy removal due to lifting tabs, and they are great for masking door keyholes. Remove while clearcoat is wet to avoid lacquer bridging.

PSM17

Cubitron II File Belts

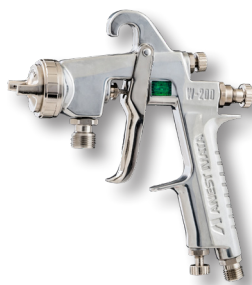

3M's most advanced file belts now come with a range of approvals from automotive manufacturers! Cubitron II File belts utilise 3M Precision Shaped Grain technology and provide improved control and ease of use for spot weld removal and many common body shop metal grinding applications. 3M Cubitron II File Belts are now the preferred range of belts for the Volkswagen Group and BMW, with the manufacturer's recognising the high performance and lifetime of the Cubitron II system.

Now available in a 13mm x 457mm size

W200 Spray Gun

Iwata W200 is a new technology spray gun and is the equivalent of the W400 Gravity feed model. Ideal for general spray painting with pressure pots or suction feed bowls, this gun is a high performer. The W200 comes in a range of setups including 1.5, 1.8, 2.0 and 2.5. There are also differing air cap options depending on pressure pot or suction pot use. (Not all setups are available ex stock).

Impact Resistant Structural Adhesive

3M™ Impact Resistant Structural Adhesive 07333 is designed to meet specific strength requirements for parts such as frame rails, strut towers, rocker panels, pillars and other members where impact resistance is important. 3M Impact Resistant Structural Adhesive is referenced in many OEM repair procedures including, General Motors, Honda, Hyundai, Kia and Jaguar / Land Rover. If the repairer is unsure which adhesive is suitable they should always refer to the Automotive OEMs specifications or contact a 3M NZ Sales Rep for further information.

1K Industrial Etch Primer

Valspar Refinish Industrial Etch Primer is a single pack modified epoxy primer formulated to give excellent adhesion to most suitably prepared substrates including:

- Mild Steel
- Galvanised Steel
- Stainless Steel
- Aluminium Alloys
- Existing Paintwork

Valspar Refinish Industrial Etch Primer is very fast drying and is touch dry in only 5 minutes. It has an unlimited pot life and can be over coated wet-on-wet or sanded.

Available in Grey, Black, White, and Red Oxide

Gun Shampoo

Finixa Gun Shampoo is designed to clean your spray gun after using water based paints, it can be used in all automatic or manual water based gun cleaning machines. It's a very economical way of keeping you gun clean and ready for the next job.

BTC80

20 Ltr ONLY

Flexible Foam Abrasive Discs

3M Flexible Foam Abrasive Discs combine a flexible aluminium oxide abrasive with a soft foam backing which conforms better to allow getting into those more challenging areas and completing the job with ease. Hundreds of laser perforated holes mean excellent dust and water control when used wet or dry creating a clean sanding environment. The Flexible foam abrasive can be used by either hand or machine making them a truly universal product for all blending applications.

Polishing Cloths

- The cloths are very soft, voluminous, lint free and free of silicone
- Can also be used for cockpit cleaning
- Comes in a handy dispenser box with 400 pieces - each 380mm x 400mm

SOF 11
