WELLINGTON

August/September 2020

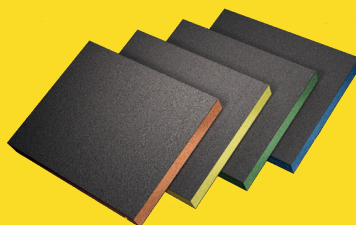

sia Abrasives - We've got the solutions for all of your Abrasive needs

Your Key to a Perfect Surface

7983 siasponge flex disc

7983 siasponge flex blue disc ultrafine distributes pressure exceptionally well, which makes blend panel preparation so much easier with a very low risk of cutting through the clearcoat.

7983 siasponge flex pad

7983 siasponge flex double sided pads are a hero sanding product. Its pressure equalising foam adapts to any work piece during sanding. A real benefit is the colour coding system, allowing for easy grit size identification.

7940 siaair discs

7940 siaair flex is your go-to damp foam disc for pre-polishing steps and blend panel preparation. The pressure equalising foam ensures a smooth and perfect finish every time.

UV Putty

Universal UV putty is perfect for spot & smart repair. The product is chemically stable directly after curing; no marking, sagging or shrinking, and dries in 2-5 minutes, depending on layer thickness. The handy cartridge pumps directly onto your spreader, no waste.

- No mixing needed - no air encapsulation from mixing
- Unlimited pot life
- Drying times not influenced by temperature or humidity
- Can be sanded immediately after drying (no cooling down time)
- Easy to sand
- Very good finishing
- Good flexibility
- Easy to apply

Ask your PSG rep for a demonstration

FINGAP80
