FINIXA TOTAL BOOTH SOLUTION

Contamination of your spray booth environment has a negative effect on your profit...Finixa's advanced total booth package is the solution! We can hugely reduce the amount of de-nibbing and polishing in your shop by producing a decontamination solution for your spray booth environment.

Finixa Dust Control

The most original and efficient formula for suppressing dust circulation inside a spray booth, workshop and warehouse. Dust Control ionizes the dust so it is being drawn together in clusters which makes it too heavy to circulate in the air. Mist economically with pressure sprayer. For best results, apply on a weekly basis.

mipa Protector Bedliner Kit

This highly resistant 2K PU texture paint protects against wear and environmental stress. Mipa Protector is characterised primarily by its outstanding shock and scratch resistance, its high UV and weather resistance, as well as by its resistance to fuels and oils. The Kits comes either in Black or a Tintable version and contain 4 Litres of product plus an application gun. The product is 3:1 so the kit contains 4x1L tins with 750ml of the Protector Paint and 4x250ml tins of the hardener. Simply pour the hardener into the 1L tin, shake to mix and screw the tin onto the gun and you are ready to go.

In addition to the protection of truck and Ute beds, there are numerous other possible applications for this extremely resistant and durable paint. e.g.

- Bodies and rims of SUV's and off road vehicles
- Floors and storage areas in caravans
- Underbodies and Chassis
- Bullbars, running boards, roof racks, wheel covers etc
- Trailers, access ramps, vehicle decks etc
