

## FINIXA METAL BONDING

Choose efficiency, reliability, and precision in your projects with our Metal Bonding solution. Finixa Metal Bonding (PLI 50) is a two-component structural epoxy adhesive system intended for use in metal and composite panel bonding. Bond line thickness is controlled by 0.25mm glass beads comprised in the adhesive. The 2:1 adhesive system is available in 220ml side by side. The universal cartridge can be used with PLI 60, the Finixa applicator gun.

### Features and benefits

- Room temperature curing, heat acceleration possible
- Long open time of 60 min, handling within 4 hours @ 23°C, full cure in 24 hours
- Bond line thickness is controlled by 0.25mm glass beads
- Withstands automotive e-coat, powder prime, and paint oven temperatures up to 230°C
- Spot-weldable (uncured!)
- Excellent corrosion protection
- High energy absorption and very good crash performance

### Metal Bonding

An epoxy-based glue meticulously developed to seamlessly bond panels of equal or different materials. This innovation provides a welding alternative, offering a versatile solution for various applications, such as roof panel replacements, attaching aluminium fenders, or affixing aluminium door panels to steel door frames.

PLI 20

## Degreasing Cloths

SOF 20 Degreasing cloths have excellent absorption capacities.

- Suited for water-based and solvent-based degreasers
- Lint- and silicone-free
- Available in a handy dispenser box per 200 pieces

**\$93.00**

SOF 20

## Plastfill Polyester Putty for Plastic

GAP 70 is a very flexible light putty specially designed for plastic surfaces that give you a smooth finish with fast and easy sanding. During sanding the putty fades from dark grey to light grey, replicating the colour of most bumper colours.

**\$42.50**

GAP 70

# SmartLine™ Masking Film

Now available in 6m Wide rolls, perfect for masking larger jobs like Vans, Trucks, Buses etc.

This overspray sheeting is corona treated so overspray adheres to the plastic and comes in a handy dispenser box.

Sizes available

- 5M x 100M roll
- 6M wide x 100M roll

## Easy Seam Sealer Roll & Roller

The OEM profile sealer for doors, bonnets, and boot lids. Quick, heat-resistant, and paint-ready. 9m per roll available in 3 sizes.

Key features

- OEM profile
- For plugging seams on doors, bonnets and boot lids
- Can be applied quickly and easily
- Heat resistant and can be overpainted immediately
- ESS 06: for Japanese, Korean and French cars
- ESS 08: most of the German cars (Mercedes, Volkswagen, Audi)
- ESS 10: BMW, vans and large SUVs

**\$70.00**

ESS06-08-10

## Liquid Masking 5L

CLM 05 dries completely and doesn't remain tacky. Apply it with a spray gun (1.5mm nozzle) in a single thick coat and remove with water and a sponge. It's biodegradable and a water-based product, making it environmentally friendly and efficient for wall protection.

**\$55.00**

CLM 05

## Rubber Spreaders - 20p

This set includes 20 flexible rubber spreaders with a soft finish, offering a unique shape that allows for reshaping on more complex contours.

Whether you're working on intricate surfaces or seeking enhanced flexibility in your spreading process, Finixa's Rubber Spreaders are designed to meet your needs

## Multi Hole Backing Pad 150mm 5/16 thread

Design enables excellent dust extraction to keep your sanding disc lasting longer.

**\$33.75**

SLPADMULTI150VEL

## Clean & Strip Purple Disc 75mm Quick Release (2)

Disc removes paint, rust, weld discoloration, and surface contaminants without damaging the base material

**\$9.00**

SLCSQR/75MM

## Multi Hole Interface Pad 150mm

A durable cushioned layer between your sanding paper and backing pad for precision sanding results

**\$14.00**

SLINTERPAD150

## Pad Saver 150mm

A pad saver is a hook-and-loop Interface placed between your sanders backing pad and abrasive disc. It drastically extends the life of your backing pad by absorbing wear and tear.

**\$19.70**

SLPADSAVE150

## Sharp Foam Pad

The Finixa Sharp Foam Pads are coated with an extra ceramic-coated aluminium oxide grit, which makes them stronger and more durable. An additional advantage is that the ceramic coating also counteracts clogging, which leads to a more uniform sanding result.

**Grits available: P80-P1500**

## Impregnated cleaning cloths

Key features

- Scrubs impregnated cleaning cloths 100p. in dispenser bucket
- Polypropylene cloth impregnated with a cleaner suitable for removal of solvent-based paints, ink, grease oil, wax etc.
- Suitable for places where there is no washing facility.
- Orange cloths 26cm x 27cm.

## Plastic Spray Sample Cards

Finixa's new flexible and lightweight Spray Sample Cards make colour matching easier and more accurate while simultaneously protecting your surface from scratches.

Made out of plasticised paper and available in 4 colours, equipped with a Ø 15 mm hole and central line in different colours to determine the coverage. Packs of 250 pcs.

## Film 4 Booth

Colad Film4Booth is a transparent protective, self adhesive film to mask and protect your spray booth walls

Protects your walls from overspray and is easily removed by simply peeling off the layers one by one when contaminated.

### Key features

- Film is treated for paint-adhesion
- Apply to new or freshly repainted booth
- Incl. 6 rolls of tape
- Easy to remove by peeling off layer by layer
- Equipped with paint adhesion
- Easy to apply
