Do you want to make more money out of your paint shop?

Your Paint Smart member can show you how with

DeBeer 1-404 Air Dry Clearcoat

In today's busy paint shop environment every minute counts and every wasted second costs you money.

This is why DeBeer Refinish has introduced a new fast drying Air Dry Clear Coat.

The **NEW** DeBeer Refinish 1-404 Air Dry Clear Coat is a very affordable option enabling body shop owner's faster turn around times for their customers vehicles, enabling them to be back on the road faster.

Imagine the potential for your business. If the average cost to run a booth during bake cycle is \$1 per minute, and the average bake cycle is 20 min. This would equal \$20 cost per bake cycle.

With De Beer 1-404 there is the potential to remove the bake cycle completely!

Multiply this by 5 bake cycles for smaller jobs per day and it's not hard to see that the DeBeer 1-404 clear coat could save you a lot of money..... 5 bakes per day = \$100 savings per day, approximately 246 working days a year, that could be over \$24,000 per year. Is that worth considering? Add to this the potential to process more jobs per day due to the freeing up of valuable booth time - this unique DeBeer Clear coat has to be worth a look.

Features and benefits:

- Dust free in 10 minutes**
- Air-Dry to nib and polish 30 minutes**
- Saves time and energy**
- Topcoat over DeBeer Refinish BeroBase 500 Series**
- Topcoat over DeBeer Refinish WaterBase 900+ Series**
- Fast, easy application**
- 2 full wet-on-wet coats with no flash-off time between coats**
- 2 coats achieves 46-56µm**
- Spray up to 3 panels in the same application**
- Two hardeners- Standard and Slow**
- Excellent pot life, 1 hour at 25°C**
- Superior gloss and flow**
- Easy to polish, if required**
- Mix Ratio: 4:1 + 0-5% Thinner**

LOCAL DEALS AT LINKUP PAINTS WELLINGTON

3M Purple Clean Sand Disc Promotion

3M purple clean sand discs have the potential last 2-3 times longer than traditional hook-it discs. Improve your productivity with longer-lasting discs and the unique multi-hole disc pattern is designed for quicker changes because hole alignment is not required. You'll see the difference in material consumption, and your bottom line.

Clear out more dust with less disc loading. The logarithmic, spiral-patterned disc design features hundreds of holes to give dust a better escape route, moving more dust away from your finishing surface without loading the disc. Dust settles into the loops of the disc pad, and not in the air or on the disc surface. Improve your disc cutting ability with premium abrasives that deliver consistent performance to get the job done and done right.

Simply purchase 3 x boxes of 3M Clean Sand Hook-it discs and receive a T-Shirt

Linkup Paints Proudly Supports Industry Training at Weltec Petone

The team at Linkup Paints believe in supporting the industry's up and coming tradespeople. This is a very important aspect as a local provider in ensuring the students are trained with the most up to date technology available.

Over Christmas the Weltec Refinish Department (Panel & Paint) underwent a major refurbishment, so it seemed appropriate Linkup support this by installing DeBeer Waterbase 900+ Series. Unlike some other water based systems on the market the base coat can be repaired easily if you have a problem before clear coat is applied.

The patented durable lightweight plastic containers are uniquely designed to keep waste to a minimum. Equipped with a self dispensing system that minimises the time the mixing colours are exposed to air, therefore reducing spoilage and waste. Additional equipment was also installed to complement the new facility, such items included a DeBeer colour spectro as well as solvent and water base Uniram gun cleaning machines.

Congratulations to Weltec on a fantastic refurbishment of their refinish department.
