paint processing products

Finixa Etch Primer

Etching primer to be used on most metal surfaces including aluminium. Excellent anti corrosion protection and can be painted over with any 1 or 2K primer/filler.

ONLY
\$13.50

Finixa Universal Primer

Finixa universal primer is ideal for spot repairs, rub throughs, and small panel repairs. Finixa universal primer is suitable to finish with all solvent and water based 1K and 2K paints and is available in light grey, mid grey, and dark grey and now in white. 400ml aerosols.

ONLY
\$12.95

Finixa 2K Clearcoat

Finally a 2K clear coat for the professional user: a SMART repair solution. Apply 2 layers with an interval of 10 minutes to get the perfect spray gun finish which is scratch free, petrol and UV-resistant and suffers no weather influences. Product is isocyanate-free.

ONLY
\$35.95

Finixa Foam-it!

Every now and then, our industry is introduced to what might look like a simple designed product but in practice turns out to be a revolutionary. Foam it! is such a product. Foam it! is an ammonia free universal water based cleaner and degreaser in an aerosol. Applications are endless.

*Plastic, leather, wood,
metal, glass, LSD
screens, kitchen &
bathroom cleaner etc...*

DeBeer 1-404 Air Dry Clear

DeBeer Refinish 1-404 Air Dry Clear Coat is a high quality, fast finishing clear coat. Air Dry Clear Coat is designed to increase body shop productivity by reducing turn-around times. Air Dry Clear Coat is fast finishing, providing a dust-free finish in only 10 minutes. This provides you the benefit of reducing time and energy consumption (used for bake cycles). Air dry may be nib and polished in 30 minutes and has very good polishing properties.

**Purchase a DeBeer
Air Dry Clear and
receive the hardener**

FREE!

Finixa Waterbased Degreaser

Finixa water based degreaser is solvent free and can be used on all kinds of surfaces and offers a lot of advantages over solvent based.

- Suitable for paint prep of solvent and water based paints
- Nature friendly and biodegradable
- Anti-static action on the surface
- Low degree of evaporation makes it easier to remove dirt
- Leaves no trace
- Affects no rubbers or plastics

wattyl[®] HIGH PERFORMANCE COATINGS

Valspar NZ has the experience and product range to meet all your industrial and high performance coatings requirements. Regardless of the application, Valspar Coatings products are engineered to provide long-term protection and a durable, aesthetically pleasing finish.

With a heritage and network spanning the globe, we can offer solutions to suit most needs including metal, marine and timber environments.

HIGH PERFORMANCE COATINGS

Engineered to provide long-term corrosion protection in the harshest exposure environments. Systems are available to provide protection against corrosion, UV exposure, aggressive chemicals and solvents and heavy wear environments. Systems have been designed to conform with the atmospheric corrosion categories defined in AS/NZS 2312 which include tropical, industrial, marine, urban and rural and arid environments. Systems have also been developed to align with AS/NZS2312 Guide to the protection of structural steel in atmospheric environments. Wattyl Protective Coatings products include epoxy primers, build coats and tank linings, polyurethane topcoats and specialised abrasion resistant coatings.

INTERIOR TIMBER SYSTEMS

Interior timber coatings are used to protect and enhance the natural beauty of timber. Systems are designed for commercial and domestic furniture, wall panelling, flooring and shop fit outs. Products are available in both clear and pigmented finishes. The product range includes two-pack polyurethanes, acid catalysed lacquers, pre-catalysed lacquers, timber stains and associated preparatory products. Valspar's dedicated team of specialists in NZ are available to assist you in finding a coatings solution for your specific application.

TECHNICAL SERVICES

In addition to its many development laboratories, Valspar maintains a specific technical services department staffed by highly knowledgeable personnel who are often able to answer questions or provide solutions over the phone. If required, they can also make visits to site when an inspection of a substrate or coating is deemed necessary before providing technical guidance. Valspar's technical services hotline is available to provide technical back-up on the phone and is also available to supply technical literature and MSDS. Technical services hotline is 0800 928 895 (New Zealand). Technical literature, brochures and other information is also available on line at www.wattyl.co.nz
